

# JT are proud to be the PARTNER OF CHOICE for Finance and Professional Service businesses

## Global communications services tailored to your security needs

Your evolving business needs require flexible, effective and efficient telecommunications solutions. With over 120 years' experience, a presence in over 110 countries and an extensive global alliance of partners, we are here to help.

We understand what it takes to be a robust and reliable business. We have a proven track record of delivering telecommunications solutions, services and support to both small local businesses and large global enterprises.

By transforming your business operations to facilitate efficiencies and growth, we aim to assist your long-term business goals. Our solutions are tailored to your business; our team will assess specific needs, then define and implement key systems to revolutionise your telecommunications.

## Secure innovation

In an effort to connect and engage, today's banking and professional services, institutions are focused on meeting the needs of tech-savvy customers, with a key focus on safeguarding critical business information. With high expectations of their financial institutions, this audience seeks convenience and personalisation, but in the securest of environments.

We have invested time in obtaining ISO/IEC 27001 certifications for our Cloud, and our Service Management Centre. Our Data Centres have further SOC 2 and 3, PCI-DSS v3.2, ISO/IEC 27001 accreditation. These resources mean JT is perfectly equipped to deliver a range of world-class solutions for your business.

Preservation and defence of your information are at the forefront of JT's products, services, and innovations; and we're here to understand all your business and customer needs, in order to provide you with the bespoke solution right for you.

Having worked alongside 18 of the world's top 20 banks, we understand your need for security and innovation, and our specialist finance and professional services team will consult you every step of the way.

## Develop and expand your business with confidence

Based on your specific communications needs, we work with you to provide the right solutions. More than a supplier, we are a business partner dedicated to making your business streamlined, secure and strong.

Enabling efficiencies and productivity with your employees, our flexible telecommunications solutions adapt and evolve with your business as it grows. We will work with you to ensure the most effective technologies are in place to facilitate existing and planned business processes.

## Supporting your workforce and your customers

Today's business landscape is more complicated than ever before. As your business develops, being ready with the right response to opportunities and challenges takes considered planning and allocation of resources.

Whether your employees are in the office, shop floor or warehouse, our secure network solutions have the structure and reach to help your business respond. JT provide technologies that help to connect and streamline your business communications processes; aiding your teams towards an enhanced customer experience.

## Smart, secure solutions to benefit your business

The safety of your business data is a key consideration; our solutions are built with scalability, flexibility and resilience in mind. The security offered by our tailored solutions helps you take a proactive approach to protecting your business-critical information in an ever-changing industry.

## Investing in your business success

We have the vision to be your partner of choice for global telecommunications innovation. For more information about JT and how we can help your business stay connected, contact our team today.

“With over 120 staff in three locations, we required a business-critical link between our offices and business continuity and speed were of the utmost importance. JT provided us with a highly resilient MPLS system, linking all teams efficiently to the company's private network.”
