

JT are proud to be the PARTNER OF CHOICE for the eGaming industry

Global communications services tailored to your eGaming needs

Your evolving business needs require flexible, effective and efficient telecommunications solutions. With over 120 years' experience, a presence in over 110 countries and an extensive global alliance of partners, we are here to help.

We understand what it takes to be a robust and reliable business. We have a proven track record of delivering eGaming solutions, services and support to both small local businesses and large global enterprises.

By transforming your business operations to facilitate efficiencies and growth, we aim to assist your long-term business goals. Our solutions are tailored to your business; our team will assess specific needs, then define and implement key systems.

Harness global gaming growth

Online gaming has grown exponentially over the past two decades to become a hugely innovative industry. We can help your business harness these developments and stay ahead of the competition.

We have invested time in obtaining ISO/IEC 27001 certifications for our Cloud, and our Service Management Centre. Our Data Centres have further SOC 2 and 3, PCI-DSS v3.2, ISO/IEC 27001 accreditation. These resources mean JT is perfectly equipped to deliver a range of world-class solutions for your business, including secure hosting, low latency, resilient internet connectivity, and reliable IT services, 24/7*365. Our Data Centres and Cloud platform are approved by the AGCC (Alderney Gambling Control Commission) and the JGC (Jersey Gambling Commission).

With the approved international regulatory framework in place and supported by our cloud platform, your customers enjoy low latency and a reliable, consistent service no matter which platform they're using.

Customers are increasingly seeking mobile offerings to suit their modern lifestyles. This will continue as **operators are expected to secure 50% of their revenue from mobile gaming by 2018***.

Our tailor-made solutions will ensure you are prepared for this exciting and extensive opportunity.

Develop and expand your business with confidence

Based on your specific communications needs, we work with you to provide the right solutions. More than a supplier, we are a business partner dedicated to making your business streamlined, secure and strong.

Enabling efficiencies and productivity with your employees, our flexible telecommunications solutions adapt and evolve with your business as it grows. We will work with you to ensure the most effective technologies are in place to facilitate existing and planned business processes.

Supporting your workforce and your customers

Today's business landscape is more complicated than ever before. As your business develops, being ready with the right response to opportunities and challenges takes considered planning and allocation of resources. Wherever your employees are based on our secure network solutions have the structure and reach to help your business respond. JT provide technologies that help to connect and streamline your business communications processes; aiding your teams towards an enhanced customer experience.

Smart, secure solutions to benefit your business

The safety of your business data is a key consideration; our solutions are built with scalability, flexibility and resilience in mind. The security offered by our tailored solutions helps you take a proactive approach to protecting your business-critical information in an ever-changing industry.

Investing in your business success

We have the vision to be your partner of choice for global eGaming innovation. For more information about JT and how we can help your business stay connected, contact our team today.
