

JT Partners with CommScope as PartnerPRO

Channel Islands, January 2018 — JT, a full-service Tier-1 global consumer and business enterprise provider with over 120-years' heritage, has successfully completed the requirements to become an integrator installer in CommScope's [PartnerPRO® Network](#). As an integrator installer, JT can offer its customers the peace of mind that comes from working with a recognised industry leader.

“We believe that becoming an integrator installer partner with CommScope will be a mutually beneficial relationship for both companies and our customers,” said Helier Mabbs, JT's Global Deployment Manager. “By partnering with CommScope, JT strengthens its ability to install world-class infrastructure solutions for business enterprise networks.”

CommScope's PartnerPRO Network consists of consultants, integrators, installers, distributors and alliance partners trained and certified by CommScope to deliver the company's broad range of network solutions. By becoming a CommScope partner, companies can differentiate themselves in an increasingly competitive marketplace. Partners can earn additional accreditation for specific CommScope solutions, which confirms expertise in those solutions. CommScope offers its partners training and certification through its market leading [CommScope Infrastructure Academy](#), among other benefits.

“We are excited to welcome JT into the growing family of integrator installer in our global PartnerPRO Network,” said Stephen Kowal, senior vice president, Global Partners, CommScope. “By awarding this designation to JT CommScope is expressing its confidence that JT has the skilled professional staff needed to service its customers in a high-quality manner.”

About JT

JT, (formerly Jersey Telecom), is a full-service Tier-1 global consumer and business enterprise provider with over 120-year's heritage.

Headquartered in the Channel Islands, JT offers a domestic and global customer base a range of world-class services including; voice and data; consultancy; co-location; leading-edge data hosting; internet; security; cloud back-up; fixed and mobile technologies; eGaming; M2M; Cloud Services (IaaS); fully managed IT services; and wholesale solutions.

Across 11 global locations, JT employs over 600 staff providing products and services to over 1 million global consumer subscribers and 2,177 active business customers. Its success in winning the contract to build a system to host up to 25,000 users for a large US firm is testament to its far-reaching capability.

JT has invested heavily in a resilient off-island network, helping robustly connect the Channel Islands internationally and support their place on the global business stage. Furthermore, in support of local domestic and business customers its award-winning Gigabit Isles point-to-point fibre optic network programme, which is reaching conclusion in Jersey and progressing in Guernsey, has seen Jersey rank 2nd globally for fibre connectivity. With the delivery of a pan-island Advanced 4G mobile network, JT is ensuring that the Channel Islands are one of the most seamlessly connected places in the world.

As the Channel Island's leading data hosting provider, JT's facilities are widely recognised as the largest, most accredited and secure in the Channel Islands supporting international eGaming and finance industry customers. As well as achieving the Payment Card Industry Data Security Standard (PCI-DSS), JT's data centres are also SOC certified (Service Organisation Certification) and comply with the European standard ISO27001.

JT has a vision to become the partner of choice for global telecommunications innovation and has built long-standing partnerships with some of the World's leading communications businesses to deliver the products and services expected from a cutting-edge Tier 1 telecoms operator. Notably, JT holds Avaya Platinum Partner Status, is a member of Dimension Data's One Cloud Alliance and is a certified Cisco 'Advanced Collaboration Architecture Specialist' Service Provider.
