

# FLEXIBLE, AFFORDABLE, COMPREHENSIVE

## mobile communications plans, built around your business

Today's business is done on the move. With employees working in disparate locations, as part of a global marketplace, effective mobile communications are essential to stay competitive.

JT Business Mobile gives you the reliability and quality of service you need to get the job done, wherever you go. Our flexible, affordable plans give you complete control over your mobile communications footprint, and the freedom to build the best solution for your needs.

### Choose from three simple price plans

Every organisation is different – which is why we've developed a range of three mobile price plans, each designed to address different needs from as little as £3.99 per month:

#### Inclusive

Provides a fixed number of monthly inclusive minutes and texts to users calling the Channel Islands and the UK, for a fixed monthly cost.

#### Team

Allows users to call and text their professional colleagues as often as they like, for a fixed monthly cost.

#### Advanced

JT's My Mobile Advanced is our most popular and comprehensive package. It combines the benefits of both our Inclusive and Team price plans in one – including:

- Unlimited texts
- 100mb data
- Free calls between users
- Free calls to 01534 numbers
- 125 free minutes (Channel Islands and UK fixed and mobile numbers)

All tariffs are subject to usage requirements and the number of service users.

### Then select your usage bundle

Once you've chosen your standard price plans, you have the option to add further inclusive monthly call minutes and GBs of data you need, for your respective users. Our call/data bundles give you the ability to customise to your business needs and our business solutions team will be able to talk you through your requirements and suggest the optimal solution for your needs.

### Bolt-on additional services

Depending on your intended usage and business needs, further service customisation is available in the 'bolt-on' services available to business customers.

### Roaming

Free to receive calls when abroad. Reduced roaming data costs – Roam for as little as 10p per MB in the UK & France.

### Data Bolt-Ons

For the regular roamer, why not use one of our data bolt-ons to get even better rates

	Monthly Bolt-on	UK & France	Europe	Rest of World
<b>Reduced Price Data Roaming</b>	£5.00	Before £0.50	Before £0.50	£0.50
		Now £0.10	Now £0.19	
<b>50MB Worldwide</b>	£10.00	Before £0.25	Before £2.99	Before £4.99
		Now £0.19	Now 0.25	Now £3.99

### Shared Minutes

Customisable additional monthly minute quantities can be shared across mobile users on your account.

### Shared Data

Customisable additional monthly data allowance can be shared across mobile users on your account.

### Capped Local & Roamed Data

At £50.00 limit or entirely capped (thus ensuring no chargeable usage is allowed within the team).

### Comprehensive handset choice

JT offers the latest business-grade mobile handsets, any of which can be included as part of your solution, for as many users as you need. Choose from all the latest handsets, including the brand-new iPhone, Samsung, and many more.

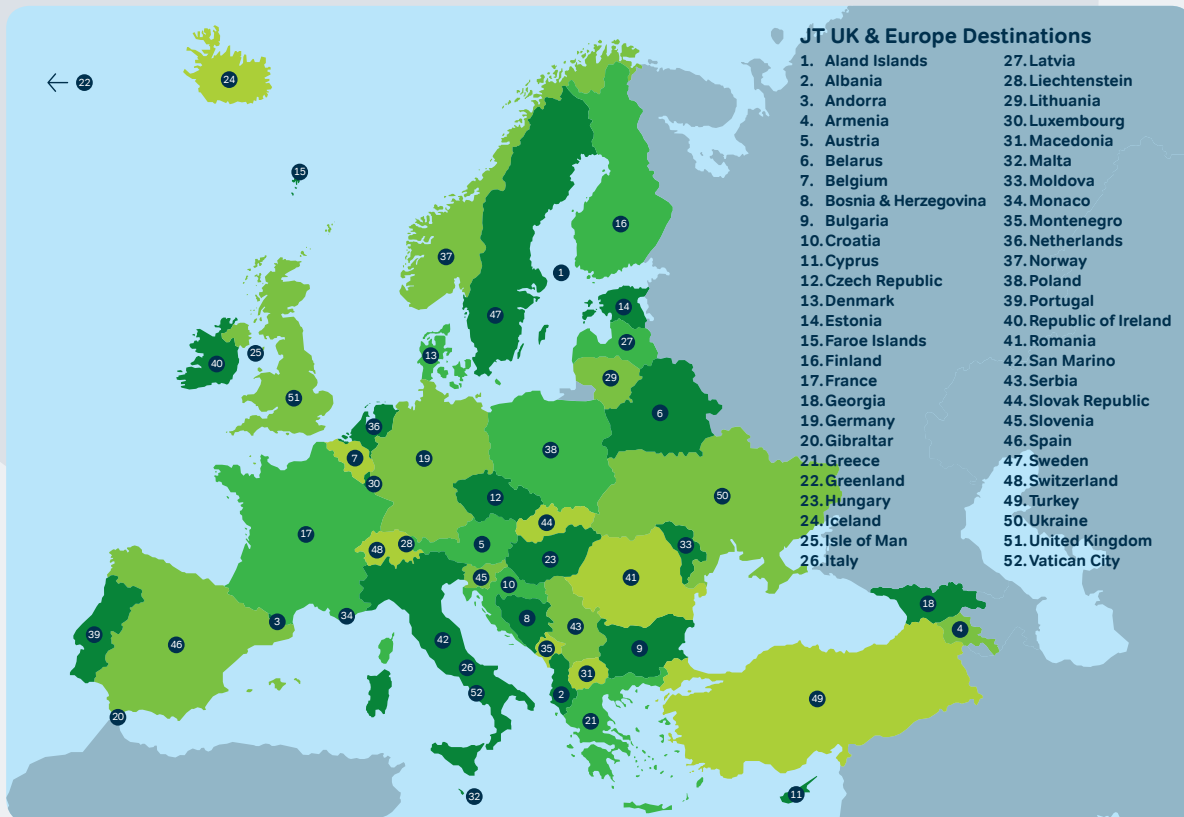

## JT One for Business

Why stop at business mobiles? The NEW JT One for Business package delivers Mobile, Landline and Broadband for ONE LOW monthly bill. Designed specifically with SMEs in mind, this package removes the hassle of managing multiple communications plans and offers enhanced and standard options.

### Use your phone like you do at home

With over 600 direct roaming agreements around the world, JT gives you cost-effective, high-quality mobile communications wherever you go. JT cuts the cost of roaming by 95% across Europe with over 150 international partners, slashing rates for business customers roaming in EU countries.

	Before	Now
Data	£3.99	£0.19
Calls	£0.65	£0.39
Texts	£0.35	£0.25
