

# Enhanced COLLABORATION with JT VIDEO CONFERENCING

In today's disparate working world, where business is done globally, and employees are constantly on the move, digital communications make all the difference. JT Video Conferencing is a great example.

Whether you're delivering a management briefing to your entire workforce, running a training programme, offering distance learning or sharing the latest performance figures with multiple stakeholders, our conferencing solutions give you the freedom to deliver powerful live presentations, when you can't be there in person.

JT Video Conferencing saves your mobile workers time, hassle and money - not to mention unplanned travel disruption. Quality and connectivity is so good, all participants will feel like they are in the room together, and can make those emotional engagements that are so important to successful business relationships.

Meanwhile, a convenient, web-based management interface means you can oversee all activity easily, in one place.

- Fast and easy to deploy, and highly reliable
- Support for a variety of endpoints from conference room solutions to personal endpoints allowing people to collaborate wherever they are
- Collaborate completely - share documents and files with colleagues and update in real-time
- Compatible with all major streaming formats, including Windows Media®, Flash® and QuickTime®

**All this means your business can benefit from a range of business applications such as:**

- Distance education
- Corporate training
- Product launches
- Sales presentations
- Technology demonstrations
- Human Resource programs
- Executive briefings
- Webinars
- and much more...
