4. SERVICE

- 4.1. JT shall provide the Customer with the Service from the Service Delivery Date.
- 4.2. The Service comprises two different elements of service, as follows:
 - 4.2.1. Monitoring and detection - This part of the Service provides the Customer with a set level of passive monitoring of the incoming traffic entering the Customer's Zone, building a baseline profile of normal traffic patterns and behaviour. Traffic flows are constantly monitored and compared to the baseline, looking for any deviations that might indicate an attack. If any abnormal or unusual behaviour is detected by JT, JT will identify the target by its IP Address and begin mitigation; and
 - 4.2.2. Cleaning and mitigation - When an attack is detected, traffic destined for the Customer's Zone is inspected and subjected to multiple layers of statistical analysis, active verification and anomaly recognition to identify malicious sources, reveal abnormal behaviour and discard packets that do not conform to the normal traffic pattern. This traffic cleaning is performed

TERMS AND CONDITIONS

utilising the profiles of the Customer's normal traffic behaviour gathered during the previous learning phase. Whilst traffic cleaning is underway it is envisaged that an increase in latency may occur.

- 4.3. Provision of the Service by JT includes:
 - 4.3.1. initial configuration, installation and maintenance of the Service on the equipment operated by JT; and
 - 4.3.2. configuration of a set of pre-defined monitoring parameters as specified by JT.

 - 4.4.3. the option of advanced chargeable portal functionality.
- 4.5. JT will use its reasonable endeavours to ensure that legitimate traffic is received as normally as possible during an attack, and that the site user's experience is affected as little as possible. In an attack countermeasures will be deployed by JT to ensure that disruptions to operations are minimised, and measures such as "Black Holing" will only be used by JT if all other measures have been deemed by JT to have failed.
- 4.6. During the calendar month following the Service Delivery Date, JT will allow what it considers to be reasonable changes to the Service as requested by the Customer which will be covered by the Service Charges. Thereafter change requests to the Service will be charged according to published rates or as agreed on the Application Form.
- 4.7. In the event of a hardware failure within the Service, JT will use reasonable endeavours to repair or replace the equipment within one Business Day.
- 4.8. JT may periodically need to make a Non-Critical Change (e.g. to upgrade its equipment to ensure the latest software versions are in operation). If JT determines, in its sole discretion, that a Non-Critical Change is necessary, JT will work with the Customer to schedule a time to make the necessary changes. The Customer shall allow JT to make these changes within five Business Days of receipt of the request from JT to do so.
- 4.9. If JT determines that a Critical Change is required, or if the Customer does not respond to a request to make a Non-Critical Change in accordance with clause 4.8, JT will make the change at a time it considers to be most convenient to the Customer. JT will use reasonable endeavours to contact the Customer's technical contact prior to making any security change or equipment upgrades under these circumstances.
- 4.10. Where part or parts of the Service will be provided and / or supported by a telecommunications provider other than JT, JT shall not be responsible for those parts so provided.
- 4.11. JT reserves the right to vary the technical specification of the Service at any time.
- 4.12. JT reserves the right without penalty to alter the Customer's network / IP Addresses provided by JT or any other names, codes or numbers allocated from time to time by JT for use in connection with the Service and all and such addresses, names, codes or numbers remain the property of JT.
- 4.13. Where the Customer comprises more than one person JT reserves the right to provide information with respect to the Service provided to the Customer to any of the persons named in the Application Form.
- 4.14. JT reserves the right to disclose the name, telephone and / or facsimile numbers and / or email address of the Customer to any person making any complaint or enquiry in relation to use of the Service, or in an emergency, to the emergency services.
- 4.15. The Customer acknowledges that JT is unable to exercise control over the content of data made available to, accessed by, transmitted by, or published by the Customer and undertakes to use the Service only for lawful purposes.
