## **JT adds to its global reach with new Belize partnership deal**

In its pacy drive to establish itself as Europe's most connected operator, JT has announced the addition of another significant partner to its extensive global network; Speednet Communications. Through this new partnership with Belize's leading mobile network operator, JT's International team is pushing ahead with ambitious plans for global growth.

JT will provide a fully managed service, which is GSMA compliant, for both inbound and outbound roaming to Speednet Belize, using JT's existing 2G, 3G and 4G roaming connectivity and supported through JT's network extension platform.

Thanks to JT's Roaming as a Service provision, Speednet Communication's end-users also gain access to international roaming coverage across JT's substantial 700+ networks around the world. In addition, JT will provide inbound roaming services, enabling visitors to Belize to connect and roam on Speednet Communications world-class 4G network.

**Tom Noel, Managing Director of JT International**, said: "JT's customers in the Channel Islands already have access to one of the widest roaming networks available and our International team are using these unrivalled partnerships to now enable leading emerging markets to benefit from this service. Our energetic roaming team work tirelessly to enable customers access to roam where they want, when they want and this roaming as a service partnership is a natural extension of that success. Adding Speednet to our trusted global network of partners offers benefits and cost savings for their customers and for ours; with the freedom to roam with confidence."

**Leonardo Calle, the CTO at Speednet**, said: "JT's Roaming as a Service is a unique product that brings us the benefits of direct roaming relationships. The immediate

## **About JT**

Founded in 1888, JT is a government-owned full-service global consumer and business enterprise provider headquartered in the Channel Islands. It provides a range of world-class services, including voice and data telecommunications, IoT connectivity, open roaming, messaging, fraud protection, eGaming, data hosting, fully managed services and cloud-based support.

JT employs more than 700 people across 14 global locations, is a leader in IoT connectivity with more than 1.6m SIMs active worldwide and provides products and services to over 3,000 business customers.

In 2018, JT completed a full-fibre network in Jersey, making the island the first jurisdiction in the world to have 100 per cent of premises with broadband connected to full-fibre. With the addition of an advanced award-winning 4G mobile network in Jersey and Guernsey, and plans underway for a 5G network, JT has ensured that the Channel Islands, a leading International Finance Centre, is one of the most seamlessly connected places in the world.

JT's purpose is to become the partner of choice for global telecommunications innovation having already built long-standing partnerships with leading communications businesses to deliver the products and services expected from a full-service world-class communications provider. Notably, JT holds Avaya Platinum Partner Status, is a member of Dimension Data's One Cloud Alliance, is a Cisco Premier Partner and a certified Advanced Collaboration Architecture Specialist Service Provider.

## **About Speednet**
