

Get there **FASTER** with **JT FIBRE** for **BUSINESS**

More and more businesses are moving their services online and the demand for quicker broadband speeds and greater bandwidth continues to grow. JT's fibre broadband network means that businesses will have a fast and reliable broadband service, capable of meeting increasing usage requirements both now and in the future.

A new world of possibilities

As the sun sets on copper line services, businesses now have a new world of possibilities at their fingertips. Brand new fibre technology and exciting new broadband speeds add up to a revolutionary new Internet experience for you and your customers.

With JT Fibre for business you can download and upload large files in seconds, but better still, your business will be positioned to take advantage of additional fibre-enabled services to further enhance your work and customer experience such as:

- **Cloud PBX** – A future-proof, flexible internet-based telephone system for businesses of all sizes.
- **Video Conferencing** – Convenient and crystal-clear conferencing with access to practical collaboration resources, resulting in productive meetings and reduced costs.

All users within your business can operate online, all at the same time, across multiple devices and benefit from a range of business features:

- **Lower contention ratio** – Ensures you always receive a high-speed service
- **Free Fixed IP address** – Enables a mail or web server to be set up on the connection.
- **Unlimited off peak usage** – All business plans include UNLIMITED off peak usage.
- **Enhanced Care Support included** – Year-round, 24/7 helpdesk for any faults or queries.

Be the fastest with 1Gb

This is our **ULTIMATE** JT Fibre plan – choose it now and future-proof your business's online world, ensuring high levels of productivity for your users.

JT Fibre plans at a glance
