

JT are proud to be the PARTNER OF CHOICE for States and Governments

Global communications services tailored to your States and Governments needs

Your evolving needs require flexible, effective and efficient telecommunications solutions. With over 120 years' experience, a presence in over 110 countries and an extensive global alliance of partners, we are here to help.

We are a government owned company so we know your challenges and understand your opportunities, which make us the perfect partner of choice. We have a proven track record of delivering telecommunications solutions, services and support across government and states departments.

By transforming your operations to facilitate efficiencies and growth, we aim to assist your long-term goals. Our solutions are tailored to your needs; our team will assess, then define and implement key systems to revolutionise your telecommunications.

Digital growth in the public sector

In today's landscape of globalisation, economic uncertainty, ageing populations and emerging technologies, the public sector faces enormous challenges. How can your sector best connect people and maximise resources to optimise employee productivity and offer real-time collaboration?

We focus on providing reliable, security-focused telecommunications innovations, so your departments and employees can concentrate on citizen experience and budget management. By helping you streamline resources, your departments could benefit from our relevant and valuable communications technologies.

Develop and expand with confidence

Based on your specific communications needs, we work with you to provide the right solutions. More than a supplier, we are a partner dedicated to streamlining, securing and strengthening your operations.

Enabling efficiencies and productivity with your employees, our flexible telecommunications solutions adapt and evolve with your needs as they grow. We will work with you to ensure the most effective technologies are in place to facilitate existing and planned processes.

Supporting your workforce and your stakeholders

Today's public sector is more complicated than ever before. As you develop, being ready with the right response to opportunities and challenges takes considered planning and allocation of resources.

Whether employees are in the office, or on the move, our secure network solutions have the structure and reach to help you respond. JT provide technologies that help to connect and streamline communications processes; aiding your teams towards an enhanced customer experience.

Smart, secure solutions to benefit you

The safety of your data is a key consideration; our solutions are built with scalability, flexibility and resilience in mind. The security offered by our tailored solutions helps you take a proactive approach to protecting your critical information in an ever-changing sector.

Investing in your success

We have the vision to be your partner of choice for global telecommunications innovation. For more information about JT and how we can help you stay connected, contact our team today.
