

JT are proud to be the PARTNER OF CHOICE for Retailers

Global communications services tailored to your retail needs

Your evolving business needs require flexible, effective and efficient telecommunications solutions. With over 120 years' experience, a presence in over 110 countries and an extensive global alliance of partners, we are here to help.

We understand what it takes to be a robust and reliable business. We have a proven track record of delivering telecommunications solutions, services and support to both small local businesses and large global enterprises.

By transforming your business operations to facilitate efficiencies and growth, we aim to assist your long-term business goals. Our solutions are tailored to your business; our team will assess specific needs, then define and implement key systems to revolutionise your communications.

Optimising future-focused retail

Telecommunications are driving meaningful innovations within the retail industry. They affect everything the retailer can now do, including inventory management, analysis of customer behaviour and personalised shopper engagement.

At JT, we help your business make the most of these technologies by working alongside you to formulate a bespoke solution aligned to your business and industry needs:

- Modernising your equipment
- Improving infrastructure throughout your business
- Facilitating increased productivity with smoother communications channels
- Helping your business realise economies of scale and business efficiencies
- Refining customer service process

With the rise of eCommerce and omni-channel retailers, we can help your business provide a dynamic, unique and consistent shopping experience across multiple touchpoints.

Grow and expand your business with confidence

Based on your specific communications needs, we work with you to provide the right solutions. More than a supplier, we are a business partner dedicated to making your business streamlined, secure and strong.

Enabling efficiencies and productivity with your employees, our flexible telecommunications solutions adapt and evolve with your business as it grows. We will work with you to ensure the most effective technologies are in place to facilitate existing and planned business processes.

Supporting your workforce and your customers

Today's business landscape is more complicated than ever before. As your business develops, being ready with the right response to opportunities and challenges takes considered planning and allocation of resources.

Whether your employees are in the office, shop floor or warehouse, our secure network solutions have the structure and reach to help your business respond. JT provide technologies that help to connect and streamline your business communications processes; aiding your teams towards an enhanced customer experience.

Smart, secure solutions to benefit your high street vision

The safety of your business data is a key consideration; our solutions are built with scalability, flexibility and resilience in mind. The security offered by our tailored solutions helps you take a proactive approach to protecting your business-critical information in an ever-changing industry.

Investing in your business success

We have the vision to be your partner of choice for global telecommunications innovation. For more information about JT and how we can help your business stay connected, contact our team today.

“We were very attracted to the truly unique and industry-leading solutions that JT offers and it was evident that their approach to tailor solutions to meet our business needs would enable us to achieve our objective of consolidating our systems and improving connectivity for our staff.”

Francesco Tinto (Group CIO),
Kraft Heinz
