

JT Cloud PBX

Product Overview

JT's Cloud PBX is a cloud-based, flexible and powerful business telephony solution, providing customers with a future-proof alternative to traditional, on-premise phone systems.

Future-Proof Moving to the Cloud.

Driven by new, flexible ways of working, PBX technology has moved from on-premise equipment to 100% cloud-based.

Providing access to standard PBX capabilities without expensive hardware or complicated maintenance and repairs, JT Cloud PBX facilitates an efficient, dependable, and cost-effective way for you to do business.

JT Cloud PBX capabilities:

- Supports multiple office locations and mobile users
- Fully scalable upwards of 2 extensions
- Presence information for all users
- Easy to add or remove users from the system
- Hosted in JT's own world-class Data Centres
- IVR (Interactive Voice Response) offers interactive selection
- Auto Attendant – automatically transfer callers

Efficient

Modern communication system.

A fixed or mobile network agnostic, BYOD-ready solution, JT Cloud PBX provides cost savings, security and flexibility whilst managing your business communications.

JT Cloud PBX lets users optimise business communications, maximise productivity, and work more efficiently whether in the office or on the move.

JT Cloud PBX users can:

- Schedule conference calls
- Control number presentation, switching easily between business and personal numbers
- Answer incoming calls on mobile or desk phones
- Access usage and performance analytics

Flexible

Compatible across fixed and mobile.

We understand the communication needs of non-office based businesses and JT Cloud PBX is perfect for those always on the go. It's easy to set up, easy to use and works in conjunction with a powerful and user-friendly app built for both iOS and Android devices so your users can communicate through hardware they are comfortable with.

JT Cloud PBX allows users to:

- Set their status
- Set their presence status
- Specify whitelist numbers to override absence status
- Separate private and business calls
- Record their own IVR messages and hold music

Did you know...

The Cloud PBX Market is expected to grow to \$20.83 Billion by 2023.
