

JT Business Continuity

Facility Product Overview

The JT Business Continuity Service provides a comfortable and secure office environment to enable businesses to continue their normal activities in a disaster situation.

Reassurance

JT Business Continuity provides the phones, PCs and network connectivity you will need to get your business back and up and running. Our facilities provide everything you need to keep 'Business As Usual' through periods of unexpected disruption, including all your business critical data and network services – all seamlessly transferred to the JT Business Continuity centre so your customers don't notice a thing.

Through identifying risks, threats and vulnerabilities that could impact your daily operations, JT provide tailored solutions that give you a resilient, effective, formulated response

Equipped

Our Business Continuity suites are fully equipped to facilitate 'Business As Usual' following an incident.

Response

We understand disaster incidents wait for no one, and are always ready to respond

- 24x7x365 monitored support
- Business Continuity Service may be activated at any time and on any day of the year
- Tests of each customer's Business Continuity Plan are included as part of the service
- IT and telephony engineering resources available after activation

Business as usual

JT are committed to providing customers the very best in continuity, protection and recovery solutions. Our dedicated JT Business Continuity Manager will provide expert advice and work toward a solution best suited for your businesses needs. As an option service, JT's Cloud Backup allows you to backup your data and systems, so that they can be recovered in the event of a disaster. JT Cloud provides you with IaaS allowing you to rapidly spin up pre-configured servers to replace any that are impacted.
