

JT Data Centres

Facility Product Overview

JT operates secure, resilient, purpose-built Data Centres in the Channel Islands, providing a range of diverse co-location and hosting services, establishing connections worldwide, and processes needed to meet the very highest of quality and security standards.

Our Cloud platform has been approved by the AGCC (Alderney Gambling Control Commission) and JGC (Jersey Gambling Commission) and is ISO/IEC 27001 certified. Our Data Centres are SOC 2 and 3, ISO/IEC 27001, and PCI-DSS v3.2 certified. These resources mean JT is perfectly equipped to deliver a range of world-class solutions for your business, including secure hosting, low latency, resilient internet connectivity, and reliable network support services, 24x7x365. In addition, with reliable data management services operating over a secure network, JT's Data Centre solutions are attracting global customers.
