

JT Managed WAN

Finance Product Description

To remain competitive in today's market with increasing regulations, financial institutions need secure and efficient communications. Dynamic networks, robust uptime and safeguarded access are essential and relied upon to ultimately provide peace of mind to customers, partners and investors.

Ensuring seamless monitoring and connectivity, JT Managed WAN (Wide Area Network) delivered, allows cost effective, controlled and secure information sharing, enabling businesses to deliver reliable and consistent services to a mobile workforce and growing customer base.

Centralised and simplified, JT Managed WAN is a networking infrastructure connecting remote sites, allowing organisations to share highly sensitive data, voice or video traffic between multiple locations.

Performance

- Quality of Service for functionality, agility and manageability
- Seamless monitoring and connectivity
- Guaranteed up-time, network performance and resilience

Cost Effective

- No need to invest in legacy infrastructure
- Reduces operational complexity for businesses

Secure

- Provided via JT's Tier 1 core network
- Managed by JT's ISO/IEC 27001 certified Service Management Centre (SMC)
